TOUCHSTONE® DG2460 CABLE GATEWAY

24x8 DOCSIS® 3.0 Gateway with 802.11ac Wi-Fi

ARRIS HomeAssure™ Enabled

The Touchstone DG2460 is a DOCSIS3.0 home data gateway supporting 24 x 8 channel bonding for up to 960Mbps of broadband data. It combines a 4-port gigabit router, and a dual band 802.11ac wireless access point.

The DG2460 serves as the hub of service delivery in the subscriber's home providing high-speed data, voice and IP video to wired and wireless connected devices.

FEATURES

- Advanced Feature support with Guest SSID, DLNA, and File Sharing
- Allows custom designed setups to be applied to monitor the end user more efficiently with multiple provisioning methods (SNMP, configuration file, remote web GUI access, TFTP, and TR-069)
- Flexibility of configuration and control with multiple local and remote access levels (user, admin, etc.).

DETAILS

Note: specifications are subject to change without notice.
